at the **Auditorium al Duomo**

After twenty active years, the Fondazione Romualdo Del Bianco®-Life Beyond Tourism® is putting the memoirs, objects and volumes that have been donated to it over the years on public display. These gifts testify to the appreciation and gratitude of students, professors, institutional representatives and friends that have been invited to Tuscany to participate in the activities promoted by the Fondazione.

These objects and books come from all over the world and from very diverse cultures. They serve as a valuable token of esteem and affection from their donors. In that capacity they can be considered to be eloquent testimonials of the things that characterise and unify the most diverse regions of the world.
