THE VISION OF LIFE BEYOND TOURISM®:
We think we can change our role in the world of tourism,
We think that the concept of hospitality goes beyond selling services.
We think that the visitors to a place are resources and not just customers.
Life Beyond Tourism® is an international Movement that transmits into practice the ethics of the Fondazione Romualdo Del Bianco® in the fields of Heritage protection,
enhancement of local cultural identities and Dialogue among Cultures.
The Movement proposes a new commercial offer focused on ethical action, providing services for everyone: individuals, young people, companies, institutions, artisans, artists.
Those who participate in the Life Beyond Tourism Movement can contribute to a path oriented to the Peace and Health of the planet Earth through the journey and be part of an International network in 5 continents and collaborations in 83 countries.
Let’s walk together on this path,
